2. *Uses a detailed working knowledge of DSM-V to include accurate diagnoses on every biopsychosocial assessment.
3. *Develops an appropriate treatment plan to intervene in a wide variety of emotional, behavioral, substance use or community-based problems.
4. *Provides ongoing assessment of clients' psychosocial needs and updates treatment plans to address these needs, appropriately.
5. *Monitors progress toward meeting treatment goals, reviews progress with client, and reports on progress with respect to treatment goal(s) on an ongoing basis in addition to completing quarterly progress reports.
6. *Provides culturally sensitive services to individuals, couples, families, or groups, as clinically appropriate. Is familiar with effective techniques in each of these modalities.
7. *Clinician may provide treatment based on a cognitive-behavioral, psychodynamic, systemic, or solution-focused model, or use elements of each in a treatment approach. Clinician is expected to have a working knowledge of each treatment framework.
8. *Provide individual and conjoint treatment for co-occurring, substance use or mental health in an outpatient setting in office, schools, or in-home, where frequency and duration varies.
9. *Performs, as designated by supervisor, diagnostic, assessment and psychotherapy interventions on an outreach/in-home basis.
10. *Fulfills reporting requirements of insurance companies that reimburse the agency for their services. Fulfills reporting requirements of public agencies that support our services with their clients.
11. *Develops and maintains constructive and professional relationships with referral sources, community colleagues, collaborating professionals and with internal colleagues.
12. *Advocates and coordinates services for clients with the legal system and social services.

13. *Arranges and coordinates support services for clients with other community agencies.
14. *Fulfills agency requirements for carrying out their responsibilities to the highest professional standards, including:
 - a) Maintains case records according to standards set forth in agency procedural manual.
 - b) Maintains productivity standards as outlined in agency manual.
 - c) Fulfills all agency requirements for statistical record keeping, program evaluation, quality assurance and attendance monitoring.
 - d) Assists with program evaluation and/or research.
 - e) Actively participates in regular clinical supervision, peer, and utilization case review meetings.
 - f) Attends staff meetings/trainings as requested.
 - g) Utilizes opportunities available for continued education for purpose of professional growth, as well as to maintain license and applicable certifications and contractual requirements.
 - h) Represents the agency's programs, goals and philosophy in the community..
15. All other duties as assigned.

III. QUALIFICATIONS:

- Master's Degree in Social Work or related field, with Michigan licensure. Ability to bill Medicare, preferred.
- Has obtained a CAADC or willingness to enter developmental plan with MCBAP.
- Has completed TF-CBT cohort or willingness to complete cohort training.
- Two or more years' experience in providing co-occurring behavioral health (mental and substance use) services to children and adults.
- Ability to communicate well, both verbally and in writing.
- Experience utilizing an Electronic Medical Record system, preferred.
- Strong assessment and treatment skills, in addition to cultural sensitivity.
- Current valid driver's license and reliable transportation.

*Essential job duties per the Americans with Disabilities Act.
